

PCC EMEA SPRING CONFERENCE 2024

Fijowave Limited was one of the sponsors of the Avaya Partners Meeting in Spring 2024. The event focused on what Avaya means to its partners and was a great chance to meet people in person. It's something people come back to every year, and they always leave feeling like they're part of Avaya's future.

The PCC creates a space where businesses can come together and tap into shared strengths. The conference is all about building a better community, helping each other grow, and working together to boost overall productivity.
